Selected Marketing Projects

Srikandi Empat Widya Utama Marketplace Growth May – Jul 2024

- Reworked product titles, descriptions, calls to action, and storefront variants using search keywords and richer product information; one optimized listing grew from 7 to 355 views and from 1 to 13 sales.
- Optimized Shopee search, discovery, and store ads; July generated Rp19.6 million in ad-attributed sales from Rp1.2 million in spend, compared with Rp6.3 million from Rp3 million in June.
- Increased July orders from 77 to 156 and products sold from 113 to 303 while reducing ad spend by 60%; used ad-type and keyword analysis to prioritize high-performing search campaigns.
- Analyzed customer geography, segmentation, purchase timing, product affinity, and reseller behavior across four publisher storefronts to recommend bundling, direct sales, live scheduling, and inventory strategies.

Kelly Florist Performance Ads and Product SEO Jan 2025 – Present

- Developed marketplace positioning through audience profiling, competitor analysis, product SEO, catalog recommendations, and KOL or affiliate campaign concepts.
- Supported campaigns producing Rp67.6 million in sales from Rp6 million in ad spend by February 26, with an average ACOS of 8.86%.
- Improved conversion by 1.31% after title and description optimization and identified imported fresh-flower products as the highest-demand category.
- Compared bidding methods and recommended more budget for high-converting products, less exposure for high-ACOS ads, and weekly A/B testing.

Denaza Marketplace Performance Review Jan – Aug 2024

- Reviewed weekly sales and advertising performance around the 8.8 campaign and payday period against a Rp5 million monthly ad budget.
- Recommended catalog redesign, product discounts, chat broadcasts, and campaign-objective changes to address click-through rates below 2% and improve product discovery.
